

M3B Plus

Cartridge Compatibility Maximized

*Cartridges not included. For illustration purposes only.

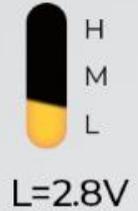

One Size Fits All

The M3B Plus was built bigger than the rest of the M3 family to fit all sizes of cartridges. It is compatible with 0.5ml, 1ml, 2ml, or even larger volumes, ensuring access is always at your fingertips regardless of your cartridge size.

Master Your Voltage Settings with Ease

Select between the battery's three voltage settings (2.8/3.2/3.6V) to your liking for flavor, vapor, or for a happy medium by tapping the button 3 times in quick succession. The LED lights will tell you instantly which voltage you've chosen, ensuring a seamless and simple experience every time.

Clear Clogs Instantly

By tapping the button 2 times in quick succession, the preheat functionality programmed into the battery will be activated for 10 seconds, immediately freeing up any potential cartridge clogs.

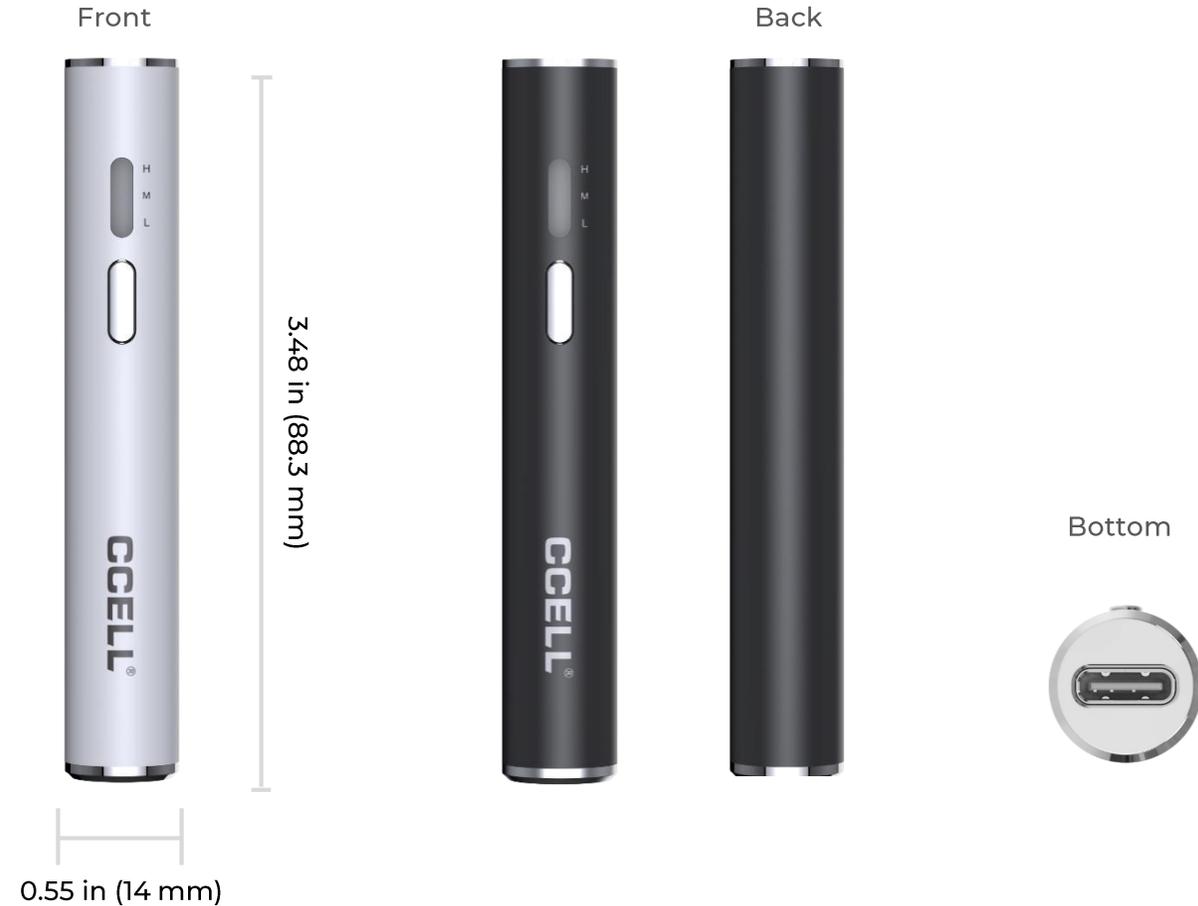

Double the Control, Double the Safety

The button was designed with extra safety in mind. You can turn the device on or off with 5 button taps and activate the battery when it is on with a single press and hold. Both button operations ensure a high level of safety, preventing unintended activation in pockets or use by minors.

Specs

- **Battery capacity:** 550mAh
- **Dimensions:** $\varnothing 0.55 \times 3.48$ (in) / $\varnothing 14 \times 88.3$ H (mm)
- **Features:**
 - 3 voltage settings (2.8/3.2/3.6V)
 - 10-second preheat
 - Child-resistant lock
 - Full metal housing
 - LED indicator lights
 - Compatible with 510 cartridges of any size
 - Standard 510 thread
 - Button activated
 - USB-C charging
 - Available for customization
